NUMBER 4.

## Fathers and Sons Night At Rotary

Fathers and sons of the Raymond Rotary Outpost had a very enjoyable evening together last Monday, when 40 dads and lads sat down to the delicious supper prepared by the Ladies Aid and did full justice to the meal and then enjoyed an hour's program, which under the direction of Frank Taylor was furnished entirely by the boys with the exception of the Community singing in which all joined.

The speakers were David Wood who spoke on the "Youth Travel Movement" in Europe which enables youth to hike or cycle for about a dollar a day, giving all who have the desire a chance to see the country for a small outlay. This movement was also started in the New England States, and he thought it was very praiseworthy and highly commendable. Willis Taylor, the second speaker spoke on the "Boy's Brotherhood Republic" movement which has spread rapidly in the States, and which has been the means of helping numerous boys to find themselves and keeping them on the road of happiness and independence. The boys acquitted themselves very creditably.

Music for the evening was furnished by the Crawford boys Earl and Jim, with their harmonicas, playing duets and singing vocal solos with harmonica accompaniment. Their efforts were greatly appreciated.

Heber Allen reported on the Saskatoon Convention May 18 and 19th and urged a good attendance of Outpost members.

The Nominating Committee presented the following slate for next years officers, and action will be taken at the next meeting on May 25. President J. O. Hicken; Vice Pres. Dr. F. M. Hall; Sec.-Treas. M. Rayo Woolf.

The evening was a decided success from every standpoint, and both dads and lads will look forward eagerly to the next Annual Banquet.

Dust storms or 'black rollers' have been reported again over parts of the states of Texas, Oklahoma, Kansas, Nebraska and North and South Dakota, which territory has not recovered from the damage of 1935. The severe winter and heavy frost has pulverized the soil to a fine dust which moves by the tons in the teeth of these lashing winds.

## C. D. Compton Made Inspector

C. D. Compton, Manager of a live and active part in the local branch of the Bank of Montreal has been appointed a Bank Inspector working out of the Head Office at Montreal, Que. and the Compton family will be leaving soon to take up their residence in the east.

Raymond will regret the departure of Mr. and Mrs. Compton and family from their midst. They have made a great many friends during their stay here, and have both taken an active part in the social and business affairs of the Town. Mr. Compton has served two years as Board of Trade President, has been President of the Legion, a number of years a member of the Rotary Outpost, an ardent courier, here his skill has made Raymond's rink worthy competitors in every bonspiel, and in many other ways he has taken

### SOAKING SNOW VERY WELCOME

Following a drizzly rain in the early evening, a wet soaking snow fell Wednesday night, continuing Thursday forenoon, bringing about 5 inches of heavy wet snow which nearly all melted Thursday afternoon. Skies were clear Thursday night and quite heavy frost fell with promise of clear weather.

Farming operations had been general for a few days, although little seeding had been done. Land was being worked preparatory to drilling and while the snow will hold things up for a few days it will give a moisture supply that will mean quick germination and rapid growth when the weather warms up.

F. R. Taylor, Agricultural Superintendent of the Sugar Co. estimated that 4,000 acres of beets had been drilled up to the time the storm arrived. Some drilling had been done in nearly every corner of the district. The snow will be especially beneficial to these early sown beets, barring the possibility of May frosts which sometimes come. Total acreage seeded to beets this year will be between 19,000 and 20,000 acres and so far as the appearances indicate this acreage is being seeded on well prepared land and good average yields are looked for.

With the rapid melting on the higher ground especially, the storm will not interfere with the feeding of range cattle, and will help the growth of grass which is greener and healthier looking this year than it has been for a number of years. Moreover the added moisture is very welcome.

### TAYLOR STAKE TEMPLE APPOINTMENTS

Following are the organizations expected at the Cardston Temple in the near future: Will those interested kindly take notice and arrange now to be there. APRIL 29 and 30th: BISHOP-RICS WEEK all wards from all three Stakes.

MAY 6th—Taylor Stake Presidency Stake Genealogical Committee and Magrath Second Ward Elders.

MAY 13th and 14th—Raymond First Ward Elders.

MAY 20th and 21st—Taylor Stake High Priests.

MAY 27th and 28th—Stirling Elders Quorum.

## Swimming Pool To Be Constructed

This will be great news for the youngsters anyway. At the Town Council meeting Monday night called especially to consider the Swimming Pool project, the Council voted unanimously to co-operate with the Central Committee in the erection of a concrete open air swimming pool on the slope just south of the High School building, and draining south and west into the main ditch that empties into the Sugar Factory lake.

This idea, the child of the local Rotary Outpost, has been under study for a number of possible sites studied out and considered. From a standpoint of water supply drainage and sufficient room for dressing rooms, etc. the selected site was considered best.

The arrangement arrived at calls for half the cash outlay from the Council together with labor for excavating and the placing on the grounds of the sand and gravel for the cement.

The Central Committee have agreed to attend to organization of labor forces, seeing to the setting of stakes and forms, organizing for the cement pouring and exercising general supervision over the entire project. This

Central Committee numbers about twelve and represents every organization in the Town that would come into the programme. As soon as a few more details of rights and privileges are settled, the stakes will be set and the excavating started.

Another item of the Council meeting was the decision to join with the Board of Trade and Stampede Committee in re-building the corrals chutes etc. at the Stampede Grounds to make a better and faster show. In this case the Town is to supply the labor, and the Committee will furnish the cash for material.

Other minor items were discussed regarding the cleaning of ditches and the care of the Town Hall grounds which will be taken care of again by Chas. Walker whose work last summer was the cause of considerable favorable comment from all who visited the grounds.

Several appeals against assess-ments were considered, after having been visited by the Works and Property Committee and the Council voted to sustain the recommendations of the Committee in respect to these matters.

## News Notes

H. S. Taylor of Magrath was visiting here Tuesday last.

Solon Low, M.L.A., Stirling was here on Wednesday.

Mrs. John T. Ross and other Warner people were Raymond visitors Tuesday afternoon last.

Bill Hawkins is back at work at the Farmco Service Station after an appendicitis operation. He is getting along nicely.

If you want the job done well and quickly, use a Want ad. It will tell 'em quickly and will also sell 'em. Try one.

Stake Priesthood will be held Sunday next. Regular union meetings of all the organizations will be held.

T. K. Roberts, his son John and Geo. Thompson were busy Saturday and Monday putting a couple of large Texaco signs at King's new station on the corner.

Read our special subscription offer. If you enjoy good reading this offer is too good to pass up. Some of the leading Canadian magazines at give away prices. Act now and avoid disappointment.

The First Ward Elders Quorum members were busy the first of the week moving the surplus earth from the east side of the Opera House and leveling it off. We are informed that new steps and a cinder walk will be put in, which will add greatly to the appearance and also to the cleanliness of the surroundings.

Speakers at the First Ward Sacrament Meeting last Sunday night were; Bishop H. F. Allen, I. B. Roberts, Pres. O. H. Snow and pres. H. S. Allen, the latter speaking but a moment or two. All spoke on the recent Conference, and President Allen will occupy the time next Sunday night is, a more detailed report. Miss Millie Romeril gave a spoken did rendition of "O, on the Cretaceous of the Temple" as a special musical number.

Hyrum Kimball returned Saturday from an extended visit in Salt Lake. He is looking well after his vacation.

W. D. Lowden of the Tip Top Co. was at the Broadway Saturday, and took orders for a number of spring suits.

Friday, Saturday and Sunday were beautiful warm days, and sun shades were in great demand. The Broadway had quite a run on the sun helmets they had recently unpacked.

Mr. and Mrs. Arthur Dahl and some of the Boys, spent Sunday last in Glenwood at the Sam Harker home, having a visit before the rush of spring work commenced.

Born to Mr. and Mrs. W. B. Porter at St. Michael's Hospital, Lethbridge Thursday, April 23, a baby girl. Mother and son are doing fine, and Warren is all smiles.

Mr. and Mrs. Harry Law and Mr. and Mrs. Owen Leavitt and their children, all of Glenwood were Sunday visitors at the home of Mr. and Mrs. Cyril Layno.

A representative of "Western Canada Outdoors" magazine was in Raymond canvassing for subscriptions. This is a splendid magazine for sportsmen and lovers of nature, and all who appreciate animal life and the great outdoors.

With the moderation in weather the sickness in the town, especially pneumonia cases, has been diminishing. Mrs. George Brown was very sick in the Lethbridge Hospital over the week-end but is showing steady improvement now.

Interest was keen the first of the week over the radio reports of the rescue progress at the mine cave-in at Moose River, N. S. Many people listened in till the early hours of Tuesday morning in the hope that word of the rescue would soon come through.

## Dramatic Rescue At Moose River Mine

### MANY ENJOY HONOR NIGHT PROGRAM

A good sized crowd attended the Stake Honor night program and dance of the Taylor Stake M.L.A. held in the Opera House last Friday night April 17th, 1936.

Raymond 1st Ward presented a one-act play 'Three's a Crowd' Magrath 1st was represented with two readings; Dancing demonstrations of both original and the M. I. A. dance for the coming year were given by the various ward representatives, and the remainder of the evening was spent in dancing.

This brought to a formal close a very successful year of M.L.A. work in the Stake.

### MAGRATH AMATEUR PROGRAM

Magrath was on the air Wednesday night last from 9:30 to 10 p.m. with an amateur program from the stage of the Empress Theatre by remote control over C.J.O.C. Lethbridge.

Harding Brewerton was master of Ceremonies and the program included vocal and instrumental music, a reading and a short historical sketch of the town by the Mayor, Geo. A. Gurney.

Congratulations to the Management of the Empress on giving amateurs a chance.

### QUARTERLY CONFERENCE MAY 2nd AND 3rd

The Quarterly Conference of the Taylor Stake of Zion will be held Saturday evening and Sunday May 2nd and 3rd, in the Stake House.

This will be a Convention Conference of the Primary and Sunday School and representatives of both the organizations will be present. Pres. H. S. Allen also informs us that a representative of the General authorities of the Church will be in attendance, but who it will be he does not know yet.

### NEWS NOTES

The Del Bonita well is under control now and crews are house cleaning there.

Carl Salmon took out a new John Deere Tractor and One-Way from the local dealer last week.

That the Victoria Dominoes are not invincible was shown Wednesday night in Winnipeg when the rebuilt "Toilers" handed them a 42-24 trimming.

Waterways Alberta situated on the Athabasca river in the north of the province is experiencing the worst floods in twenty years according to reports. Many houses have two feet of water in them, and one house in the path of the flood was picked from its foundation and moved 100 feet away.

Nearly seven millions of dollars will be or has been distributed to farmers of Western Canada belonging to the Wheat Pools, which represents an adjustment on the 1930 crop. This is the announcement of Hon. J. G. Gardiner, Minister of Agriculture for the Dominion, in a meeting held recently in Moose Jaw, Sask.

Amidst shouts of "Hurrah" and the singing of "Praise God From Whom All Blessings Flow," Dr. F. E. Robertson and Alfred Scadding, who had been entombed in the Moose River Mine for ten days were carried to the surface and placed in the waiting ambulances by volunteer miners who worked in shifts against great odds, risking their lives every minute of the time they were in the hastily dug shaft. Mingled with the rejoicing the body of Herman Magill was carried out of the mine covered with a blanket, the sight of which caused many heads to be bowed in grief as the corpse was carried by them.

Radios across Canada were tuned constantly to the Canadian Radio Commission for news of the progress of the daring and willing workers who were carrying in bucket brigade fashion the stone and debris from the shaft as they worked down. Many sleepless hours were spent as the people waited for the half hour broadcasts, and doubtless many prayers were said for the workmen and the continued safety of the entombed men. It was the signal for a release of tense nerves when the men were finally contacted and brought out, and men joined their tears with the women in weeping for joy when the seemingly impossible had been accomplished.

Possibly because Dr. Robertson was one of the entombed is the reason it was possible to bring the two out alive and well as they were. Magill, who passed away early Monday morning a few hours after the communication tube had been put thru was not in good health when he entered the mine and with the prolonged imprisonment and the development of pneumonia was not able to hold out. His comrades assisted all they could in trying to prolong his life, and when he died Dr. Robertson was holding him in his arms trying to keep some warmth in his body.

Chapters could, and no doubt will be written on the rescue. It was dramatic, outstanding in several ways, and the tiny microphone, the fact that the diamond drill went through so much stone to come out in the small room where the men were, the fact that by careful preservation of their strength and drinking plenty of water kept Dr. Robertson and Scadding in such good condition will all be something for people to talk about for a long while.

Dr. Robertson, according to latest word was in splendid condition, and making rapid progress toward recovery. His companion, Scadding, whose feet were in bad shape had been taken to Halifax to the Hospital, but nothing serious was expected in either case, and the men it is hoped will be well and hearty again soon.

The rescued men will live with an experience behind them that possibly no other men have ever lived through and then been able to tell about. The rescuers who risked so much have made themselves national heroes and the idols of the wives and children of the rescued men, and the hearts of the people of Canada beat as one while the efforts at rescue were going on.

Local bee keepers are reactivating their hives of bees now, which many of them ship in annually instead of trying to keep them over. Quite a large number arrived on Friday's freight

### WILL YOU HELP

#### THE PROJECT

Is a swimming pool for the Town a project worthy of your support? If it is will you assist the Central Committee with your time and money to put the project over and give the youth of the town and district an opportunity to enjoy the benefits and joys of swimming in a clean, sanitary and supervised pool.

In the estimates submitted and voted upon at the meeting of the Council and Committee Monday night, no allowance was made for labor of any kind. This means that carpenters, teamsters, truckmen and shovel men will be expected to rally to the cause and proffer their assistance to assemble materials, excavate the ground, set forms for concrete and when the day for pouring the cement arrives it will take everyone on a shovel handle to run the necessary concrete in the one day, so that it can set evenly, uniformly and firmly.

As far as the project has advanced in the matter of surveys levels etc. the help of Mr. Bentall and others of the Canadian Sugar Factories staff has been very commendable. When the stakes are set and the pool is

laid out the technical preliminaries will be about finished, and the team and shovel work will commence, and there will be a place for everyone. A truckman that could pick up a load of sand or gravel returning empty from some trip would be rendering a fine service. Tests will soon be completed and instructions given as to where to load. And so, with the other work, an hour or two or three, or an odd day could all be used, to good advantage and you would be assisting in one of the best projects we have worked on for some time.

The various phases of the work will be allotted to various committees and the lining up of help will commence. In view of the benefit to the youth of the community, who after all are our greatest capital, it is hoped that all will take a broad view of the matter, and co-operate 100% in putting the thing over to a successful completion.

Like many other projects, a successful completion of this will put Raymond on the map as a town that gets things done. Let's go.

from place to place. Upon their feet too rests the entire body weight of that vast host of workers who must stand throughout their working hours.

Personal comfort and efficiency depend, to a considerable extent, at least for many people upon the condition of their legs and feet. The bones of the feet are like a pile of jointed blocks held in place by muscles and ligaments. If the bones are pushed out of place the feet cease to function adequately as supports or flexible carriers, and trouble will likely result.

As parts of the body, the feet may suffer from general disorders which attack the body. The extra strain imposed by an overweight body may be the cause of foot troubles. While this is true, most of the difficulties come from the direct misuse or abuse of the feet themselves.

Despite the nudist cult, we belong to a civilization that clothes itself. The bathing beaches, however, reveal to all the fact that feet are of many different kinds and shapes. The manner in which our feet are clothed is important because of the discomfort which follows upon the wearing of shoes and stockings which do not fit our feet.

The shoe needs to be longer than the foot as otherwise the toes are forced back with each step that is taken, the joint of the big toe suffering particularly. Short shoes are the common cause of bunions. Unless this same big toe joint is to escape unreasonable pressure, the shoe must be as deep as the joint.

Corns and callouses are caused by irritation, due to pressure or rubbing. Shoes which are either too tight or too loose may be responsible. The same results come from socks and stockings which are so tight as to exert pressure or so loose as to get into creases.

The most common cause of tired legs is varicose veins. In other cases, the feet are responsible. It is not that bunions, corns, callouses or tired legs are serious in that they will have any effect upon longevity or the occurrence of disease, but rather, the amount of discomfort for which they are responsible makes them important.

Varicose veins may be corrected by early treatment. Proper care may, at least, prevent them from becoming worse. Various treatments may give some relief for the feet, but in no case can there be any real recovery

unless the cause of the trouble is removed and the feet treated fairly by being clothed in shoes and stockings which fit.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St. Toronto, will be answered personally by letter.

Beet drills were busy the first of the week in all corners of the district. A number of gardens have been plowed and a few of them show signs of planting.

An Alberta editor, just about to go to press, "pied" a couple of articles, one concerning an auction sale and the other a write-up of a wedding. He asked the office devil to get the two articles together and here's how he did it:

"William Smith and Miss Lucy Anderson were disposed of at public auction at my barn one mile east of a beautiful cluster of roses and two white calves before a background of farm implements too numerous to mention, in the presence of about 70 guests including two milk cows, six mules and a bob sled. Rev. Jackson tied the nuptial knot with 200 feet of hay rope, and the bridal couple left on one John Deere gang plow for an extended trip with terms to suit purchasers."

### SANITATION IN POULTRY PRODUCTION

Today's baby chicks are next winter's egg producers and now is the time to begin strict attention to sanitary measures which will help to ensure the development of a healthy, vigorous flock of pullets to go into the laying house next October. As experienced poultrymen are only too well aware, poultry at any age are susceptible to a wide variety of diseases, and once infected are extremely difficult to treat. This applies with special emphasis to young stock since chicks are very highly susceptible to infection during the first few months of their lives. Consequently, prevention is much easier and much more economical than cure.

Where chicks are being raised in brooder houses, some attention should be given to the location of the house, & a good motto to remember in this connection is: "Raise the chicks in brooder houses at least 200 yards from the rest of the farm flock." In any case the chicks should, at all costs, be kept until they are at least four months of age, entirely separate from the rest of the flock, and on ground which has not been used by old hens for a full year or more. If sufficient range is available, it is a good plan to move the location of the brooder house occasionally during the summer to keep the young stock on dry land exposed to the action of the sun, as sunlight is one of the best and cheapest disinfectants, while damp shady spots are likely to be fertile breeding places for disease germs and parasites. If clean ground is not available much can be done through the use of small inexpensive sun porches (4'x7') made of open wire with a half-inch mesh bottom raised well above the surface of the ground.

However, the most ideal location may become polluted if ordinary sanitary measures are not practised. The brooder house should be thoroughly cleaned and disinfected before the chicks are introduced and, at the Lethbridge Station, a very satisfactory combination cleaning and disinfecting agent made by dissolving one can of lye in three gallons of boiling water is used. As this solution is very strong the operator must be careful not to get it on his hands or face. A good utensil for washing houses is an old broom dipped in the above solution.

After the chicks are housed, steps are taken to keep the house and utensils clean. The litter is changed every few days during the first weeks and as often as is necessary to keep the house clean and dry thereafter. Care is taken to provide ample quantities of fresh water in clean readily accessible vessels. Clean water is a cheap but very essential feed and its importance is often overlooked, perhaps on the very account of its cheapness. A ration balanced according to the requirements of the chicks at various ages is made available in clean containers—not in filthy litter or on contaminated ground. Ample supplies of green feeds are provided.

Good stock, good feed, good housing and good management are the corner-stones of successful poultry keeping, and the existing bright prospects of high prices for poultry products next fall and winter should offer every encouragement to the poultry keeper to begin now and continue to employ throughout the summer, the best practicable methods of feeding and management.

W. L. Carmichael and son of Lethbridge, were here on business last Monday.

### TICKET SERVICE PROVES POPULAR

Montreal— Opportunities for out of town sons and daughters to entertain their mothers on Mother's Day, Sunday, May 19 or fathers on Father's Day, a little later, are being given this year by the Canadian Pacific Railway according to announcement today by E. G. Carter, general passenger agent of the company. For these important two days in the lives of all parents, the Canadian Pacific Railway is featuring a delivery service of railway tickets, whereby a son or daughter can pay for the transportation at the nearest Canadian Pacific office in the municipality where he resides, and the order will be sent by telegram to the parent's hometown office and delivered directly to the home without extra charge. This service proved very popular last Christmas and by to the home without extra provide a happy holiday for parents with out of town children on Mother's or Father's Day this year.

### Vancouver's Golden Jubilee

Fifty years ago the first trans-continental Canadian Pacific Railway train from Montreal reached the Pacific Coast. This summer Vancouver, now the Gateway to the Orient and port for ships of the entire world, will celebrate the Golden Jubilee of its founding as the western terminal of the Canadian Pacific Railway, commencing July 1 with Dominion and International Good Will Week, the programme concludes with the Canada Pacific Exhibition on September 7, and includes land and water sports, several weeks of grand pageantry, musical attractions, visit of American warships, a two-day air show with a solo flight across Canada planned as the highlight, floral decorations, visit of 15,000 Shriners in mid-July, traditional

pageantry of an Aldershot tattoo, frontier week, street dancing and costume balls, and historical exhibits arranged to illustrate Vancouver's steady progress during the first half century of its existence.

Even before the beginning of the celebration proper, many colorful events will be given recognition, including Empire Day and horticulture show in May; Pioneers' festival on June 13-14; schools' programme in June; Eucharistic Congress, which will attract thousands, June 11 to 14; golf tournament, King's birthday, and religious dedicatory services.

One of the highlights of Vancouver's celebration will be the re-enacting of the arrival of the first Canadian Pacific train

almost half a century ago. The venerable old engine, first to the coast, will be run again, with its original pilot, W. H. Evans, at the throttle. Some of the old-timers who saw the first train arrive will also be present for the ceremony. The Canadian Pacific Railway will run tours at low cost from Eastern Canada to the Pacific Coast for the event, with stop-over privileges at Banff Springs Hotel, Chateau Lake Louise, and other famous Rocky Mountain resorts.

Pictures show the old and the new Vancouver, and Sir William Van Horne, second president of the Canadian Pacific Railway, who chose the name of Vancouver in 1881 for the western terminal of the first trans-continental railway line.

—C. D. Compton, 2M1

### MOST OF THEM DO!

"And now, dear, that we are  
married, let us have a clear un-  
derstanding about our affairs,"  
said the practical young man to  
his bride. "Do you wish to be  
president or vice-president?"  
"Neither," the girl replied.  
"I'll be just the treasurer."

### DUNNING ASSAILS POOL 'PROPAGANDA'

Ottawa.—Announcement at some  
of the "propaganda" carried on  
by the Alberta Wheat Pool was  
expressed with some vigor by  
Hon. C. A. Dunning last night.

Referring to an official public  
ation of the pool to the effect  
that large payments had been  
made to "big interests" in con-  
nection with the storage and  
carrying of wheat, the minis-  
ter added:

"It is not often that I come to  
the defence of the leader of the  
opposition, but the fact is  
that the "big interests" that  
got money in connection with  
the storage policy were the  
pools themselves, one of which  
was making this statement. I  
have called their attention to it,  
so I am not saying anything  
here that I have not said to  
them. They were referring to  
what they called instances of  
feeding big interests and mul-  
tling the farmer, when as a mat-  
ter of fact the pools themselves  
were the largest recipients.  
That is only natural because of  
the extent to which they control  
the elevator facilities." — Cal-  
gary Herald.

### NEWS NOTES

A. M. Sutherland, druggist  
was elected President of the  
Lethbridge Merchants Retail or-  
ganization for the coming year.

Card's Service Station, erected  
a fence at the south and east  
of their premises. This will be  
a nice improvement to this  
corner.

Ted Gourley is working at the  
Sugar Factory in Picture Butte,  
and we understand the family  
will be moving over there the  
end of this week.

A load of straw broke through  
the crust of the road at Roscoe  
Larson's corner Monday last  
and broke the tongue out of the  
wagon trying to get out.

Gardens are showing above  
ground at Barnwell, if it was  
as nippy there Thursday night  
as it was here some of them  
will look rather sick after the  
frost.

### NEWS NOTES

H. P. Welch and Ross May of  
Lethbridge were in Raymond  
for a few hours Sunday.

A Meeting will be held in the  
High School Monday night, ad-  
dressed by Solon Low, and the  
Hon. N. E. Tanner.

Porter's Garage sold a Terra-  
plane Light Delivery and a De  
Luxe Sedan to C. L. Duncan  
last week. The Sedan has not  
been delivered yet.

When told of the rescue of  
her son from the Moose River  
mine Alfred Scadding's mother  
wept for joy and could hardly  
control herself.

Christian Strum of Richmond,  
Alberta had his neck broken  
when he was thrown violently  
from his democrat when his  
team bolted at the approach of  
a cyclist.

Why rob yourself of the con-  
venience of a Typewriter when  
you can buy them on the liberal  
terms now offered. Come in and  
ask about them. Four different  
styles of Portables to suit your  
every need.

Due to the soft condition of  
the roads, the gravelled highway  
between Macleod and Calgary  
are closed to heavy loads in a  
number of sections; also the  
highways north of Calgary.

A horse and buggy will get  
you there as good as an auto-  
mobile; but what a difference in  
time and comfort. So it is with  
your printed stationery and  
forms. We can fill all your needs  
in printed matter. Call in.

Britain has announced she  
will maintain law and order in  
Palestine at any cost. Some riot  
ing has been experienced there  
and the above statement is the  
gist of an answer by Hon. J. H.  
Thomas.

Cattle prices in Britain are  
reported higher and steadier.  
This will be good news to local  
feeders, some of whom have been  
holding their fat cattle for some  
time hoping for an improvem-  
ent in prices.

The transport truck of the  
Canadian Sugar Factories Ltd.,  
dropped through the crust of  
the road on Broadway Saturday  
morning, and "Cliff" had to un-  
load part of his load in order to  
get out. Frost boils are decorat-  
ing the roads in all directions  
now on the streets, and high  
centers are very common.

Elders Geo. Gurney and D. H.  
Keeler of the Magrath 1st Ward  
were the speakers at the Ray-  
mond 2nd Ward sacrament  
meeting Sunday evening, and  
both gave interesting and in-  
spirational talks, which with  
the musical program made a  
profitable meeting for all who  
attended.

This storm has done it. What  
with soft spots before, when  
one could see them negotiating  
our streets with a car now is  
almost like driving blindfolded.  
Car after car had to be towed  
out of the holes Thursday  
and the garages report a thriving  
rescue business.

Alberta's main highways are  
to be patrolled this year, and  
spectators had best watch out lest  
they be nabbed. There are flag-  
rant violation on our roads with  
respect to condition of lights,  
horns, brakes etc. also in road  
courtesy. Is it likely the patrols  
will remedy this? Ten cars will  
be used by police officers.

When Siegfried Pawluski  
playfully called to his 11 year  
old brother Frederick to "shoot  
me," Frederick raised the shot-  
gun loaded with bird shot, pul-  
led the trigger and killed his  
brother by shooting him in the  
neck. The tragedy occurred at  
Provo, Utah on Monday.

A rescue crew fund for the  
miners who were working to  
rescue Dr. Robertson and Alf-  
red Scadding from the Moose  
River mine has reached \$10,000  
and is still growing. Michael  
Dwyer Minister of Mines for  
Nova Scotia will supply the  
1st of names to who the money  
is to go.

## PARENTS

Give your Child  
this Advantage

SOMETHING every parent of a growing  
child should know—a survey of 10,000  
school children has proved that a typewriter,  
used for homework, improves general school  
work enormously. Spelling, reading and com-  
position are especially bettered. Why deny  
your child this help, when it costs so little?

Not only your children, but you, and all your  
family, will enjoy using the Remington Por-  
table Typewriter at home.
